RAST CAVY SUB COMMITTEE

Henry Burbury (Chairperson)

Scott Woodham (RAST)

Cathy Sulman (Show Manager – Cavies)

Peter Dodge (Show Secretary - Cavies)

Bronwyn Dodge (HCC)

Mikaela Howell (RAST – Assistant Cavy section)

Stephen Robson – Rustyplains Stud, Queensland

Stephen started in Cavies back in 1999 when he registered his stud Rustyplains Cavy Stud. He joined the Northern Rivers Cavy Society and started his judges training in 2002. He has judged in almost every State in Australia including the Queensland State Titles, Victorian State Championship, South Australian State Championship and the NSW State Championship Show. He has also judged shows in Western Australia. Stephen has bred and shown from every group with his main breeds being Self and Crested Blacks, Pink Eyed Whites and Black Roans.

We welcome Stephen to his first judging appointment at the Royal Hobart Show.

Diana Carroll – Woodsong Stud, Tasmania

Diana's love of Cavies began back in those early years of the Van Dieman & Tasmanian Cavy Club which was before the Hobart Cavy Club was formed. Diana became the first President of the Hobart Cavy Club in 1986 and was at the forefront of the establishment of the new Club. Diana commenced her judges training under the guidance of her father in law Mr Ken Carroll and is the longest serving Cavy judge in Tasmania. Diana has a wealth of knowledge of all breeds. Diana has judged in South Australia and Queensland in recent years.

Diana is known for her love of the log haired Cavies and has also been known to breed a good Abyssinian or Rex or two. Diana huge love of Horses has kept her away from the Cavy scene a little over recent years.

We welcome Diana to her first judging appointment at the Royal Hobart Show.

 RECYCLED PAPER PRODUCT
ENVIRONMENTALLY FRIENDLY

FOR YOU, YOUR CAT & THE ENVIRONMENT

A cleaner & healthier environment

- Our uniquely formulated pellets are virtually dust-free
 - this means less tracking, scattering and spread
 - this also means minimal respiratory irritants (for you and your cat)
- Used pellets don't stick to the scoop or litter tray
 - so it's easier & faster to keep clean.
- The natural absorption qualities of our recycled paper product helps to keep the area dry.
- The natural odour absorption qualities of our recycled paper product minimises odour without the use of chemicals or additives.

Long-lasting with minimal waste

- The naturally high absorption qualities of paper means our product is long-lasting.
- Our uniquely formulated pellets have minimal breakdown qualities & retain their shape even when wet.
- Our pellets are virtually dust-free, which means less waste.

Easy to use, clean-up & dispose

- Our uniquely formulated pellets are virtually dust-free
 - this means less tracking, scattering and spread.
- Used pellets don't stick to the scoop or litter tray
 - so it's easier & faster to keep clean.
- Our lightweight product is easier to lift, carry & use.
- Our pouring spout makes it easier to pour & gives more control.
- Our biodegradable product can be easily used as surface mulch in gardens or disposed for decomposition at a managed landfill facility.
- Our packaging can be recycled with other paper or can be composted or used as an environment-friendly bio-fuel.

Recycled products can save landfill space, save energy, reduce pollution & use less resources than virgin material

- Our product is made from >99% recycled paper & utilises no virgin material.
- After use, our >99% biodegradable product is ideal surface mulch, which (especially when mixed with other organic material) can help suppress weed growth, retain water, help protect plants from frost & reduce soil erosion.
- Our paper packaging (including print inks) is recyclable or can be composted (it's biodegradable) or used as an environment-friendly bio-fuel.

No bleaches or additives

- Our patented process is Process Chlorine Free (PCF) which means it utilises no bleaches (including chlorine, oxygen-based & elemental bleaching).
- Our product utilises the natural absorption qualities of paper & has no coating, bulking, anti-clumping, absorbent gels or scent additives (>99% no additives).

Better transport efficiency & reduced transport emissions

- Our product is lighter than clay, chemical & wood alternatives.
- Lightweight products result in lower fuel consumption (before & after purchase) & lower emissions per km (before & after purchase).
